Claim Objections

1. Claim 1 is objected to because of the following informalities: a comma (,) should be inserted between the terms "device" and "said" in line 16, for grammatical clarity. Appropriate correction is required.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter, which the applicant regards as his invention.

3. Claims 1-2, 4-5, and 7-10 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 is indefinite due to the fact that it is unclear what is actually being claimed by the limitation of the movable lower supporting roller "being singly and firmly fixed individually" to the second movable structure.

4. The term "firmly" in claim 1 is a relative term, which renders the claim indefinite. The term "firmly" is not defined by the claim, the specification does not provide a standard for ascertaining the requisite degree, and one of ordinary skill in the art would not be reasonably apprised of the scope of the invention. No qualitative or quantitative limitations have been set forth to clearly define this term.

Allowable Subject Matter

5. Claims 1-2, 4-5, and 7-10, as best understood, would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Response to Arguments

6. Applicant's arguments with respect to claims 1-2, 4-5, and 7-10 are have been considered but are moot in view of the new ground(s) of rejection.

Further consideration shows that the Adams et al reference lacks any description of the idler wheel 18 being connected to frame section 25 and/or the set forth support rollers 26 connected to frame section 25. Therefore, the amended claims overcome the Adams et al reference.
